USA Unlimited Phone Calls

SUPPORTING YOU EVERYWHERE ON EARTH

ENJOY FREE UNLIMITED PHONE CALLS TO UNITED STATES WITH ALL BUSINESSCOM
SATELLITE SERVICES, VOIP PHONE INCLUDED

Free Unlimited Phone Calls to USA

Subscribe to BusinessCom satellite Internet access service and call your friends, family and colleagues in United States free of charge

BusinessCom is pleased to include this bundle for all our customers, including US Military, Government and Enterprise customers, using our satellite services worldwide. We will provide you with a free Voice over IP phone that plugs directly into the satellite modem. You will be able to call any USA phone number - landline and mobile, exactly as if it would be a traditional telephone back home.

This offer is subject to our Telephony Fair Usage Policy*.

Additional BusinessCom Telephony Services Available:

Direct Inward Dial (DID) Service: BusinessCom can allocate you a US-based phone number - virtually any area codes are available, so people can dial to your VoIP phone, as if it would be a normal US-based telephone. All our DID services come with unlimited minutes at a fixed fee per month.

International VoIP Calls: BusinessCom provides high quality worldwide VoIP service at very competitive rates. There are no volume commitments and no sign-up fees to activate your international account with us.

Private VoIP Network: Call other VoIP phones connected to BusinessCom Telephony Service free of charge. Create your Enterprise wide area network with VoIP endpoints using both terrestrial and satellite connectivity.

*Telephony Fair Usage Policy

10,000 call minutes are allowed maximum per each bundled account per month. Once this limit is exceeded, BusinessCom will not route calls to Public Switched Telephony Network until the end of the month. Customers who need more than 10,000 minutes per month are advised to use our standard telephony service - please consult with your BusinessCom operations manager. All unlimited subscriptions are allowed for group use. BusinessCom reserves the right to change this Fair Usage Policy any time.
